- Unique Visitor Labelling

## VISITOR LABELLING PACKAGE

Here at Rapid Labels we had a problem. How to manage visitors to our facility within OSH requirements without shelling out for those expensive carbon visitor books and name tags? We nailed it combining a Zebra printer, direct thermal labels which we hold in stock, and some special software. The system works a treat. Then we thought – maybe others have the same problem!

### INTRODUCING THE RAPID LABELS VLP

Save money and gain control with Rapid's new Visitor Labelling Package

1 x Zebra LP2844 Printer

4 rolls of DT076048MP25 Direct Thermal Labels (1500 per roll)

1 x VLP Visitor Labelling Software

**ONSITE  
INSTALL  
AUCKLAND  
HAMILTON  
WELLINGTON  
CHRISTCHURCH**

**\$1600\*** ALL UP – ONE PRICE FITS ALL

### FICTITIOUS LABEL FORMAT EXAMPLE

Labels include fields for:

- VISITOR'S NAME
- VISITOR'S COMPANY NAME
- WHO THEY'RE VISITING
- DATE & TIME
- YOUR COMPANY LOGO
- YOUR OSH GUIDELINES
- LABEL SIZE 76 x 48mm

Your receptionist keys in the visitor's name, their Company and who they're visiting. Out prints the 2 labels – the name label, and your own OSH guidelines for your visitor to read.

All you need is a PC and the desire to save money.

Better still – in the event of an emergency you can instantly print a register of visitors on site. Plus your visitors remain confidential, but add into a searchable database which can be useful for any number of reasons.

And as if it couldn't get better – our Zebra techies will sort out your print layout and get it working with your PC.

Cheap we reckon – sink \$1600 & then your only ongoing visitor cost is a few cents per label.

And if you've got a touch-screen monitor for just \$200 more we can set it up so the visitors fill in their own details.

Plus avoid visitors reading your visitor register!

\*The \$1600 excludes GST but includes installation on site in Auckland, Hamilton, Wellington & Christchurch. For those clients outside those cities, we can travel to you at additional expense or send you the package and talk you through the installation. 12 month printer warranty, 6 month printhead warranty. If you've got a printer spare which can work with the VLP system - call it \$800. Price effective 3/12/07 but may be subject to change.
