Rapid Labels is pleased to present the all-new Zebra G-Series Desktop thermal label printers.

In stock now, we have the new 4 inch best-of-breed desktop printers from Zebra of the USA.

Dark grey, with a smaller footprint than the old models, the GK & GX Printers have EPL and ZPL languages embedded in all models.

This is the release of a new generation of printers – somewhere between the old Zebra desktops and the current Zebra S4M.

The entry price for these printers is a little higher, but so is the specification – a very good value proposition.

8MB RAM and 4MB Flash Memory standard in all G-Series printers. Optional moveable sensor.

The previous range of Zebra desktop printers remain available and will be for some time.

FREE DEMONSTRATIONS

Auckland – Stacy McIntosh 027-2098021

Hamilton – Brent Craven 027-6027666

Wellington – Julie Naylor 027-4823399
